

100% PURE PINK HIMALAYAN SALT

WHAT IS PINK / HIMALAYAN SALT

It is pure, scentless, and untreated, and a gift from nature to world. Himalayan Salt is a fantastic dietary supplement that both tastes and appears great. It is high in trace minerals and is obtained from subsurface seams of salt deposits in the unpolluted Himalayan foothills. It has long been valued for its health benefits, and it is now appreciated by many Chefs. It is frequently asserted that pink Himalayan salt is the healthiest and purest salt currently accessible on earth. With a wide range of nutritional, medicinal, and culinary benefits. You can substitute it for processed salt as a healthier option.

BENEFITS OF USING HIMALAYAN SALT

- ✚ Enhances Respiratory Issues
- ✚ Natural Digestive Aid, Balances Body's pH
- ✚ Promoting a strong libido
- ✚ Air Purifier
- ✚ A better sleep aid

Trochil Solutions Private Limited

Welcome to Trochil Solutions — Your Trusted Partner in the World of Himalayan Pink Salt

At Trochil Solutions, we bring you the natural wonder of the Himalayan Mountains through our premium-quality Himalayan Pink Salt products. We specialize in the mining, extraction, processing, packaging, and global supply of this extraordinary natural resource, ensuring that every grain reaches you with its original purity, freshness, and exceptional quality.

Formed over millions of years within the ancient Himalayan rock formations, our Himalayan Pink Salt is recognized worldwide for its beautiful natural pink color, rich mineral composition, and unique flavor. Carefully harvested from pristine salt mines, our products contain the natural essence of the Himalayas, making them a perfect choice for enhancing culinary experiences and promoting a healthier lifestyle.

Our commitment goes beyond providing high-quality salt. We follow responsible and sustainable practices throughout our operations, ensuring that every step — from extraction to delivery — is carried out with care, environmental responsibility, and respect for nature. By maintaining strict quality control standards, we preserve the natural characteristics and purity of this precious mineral.

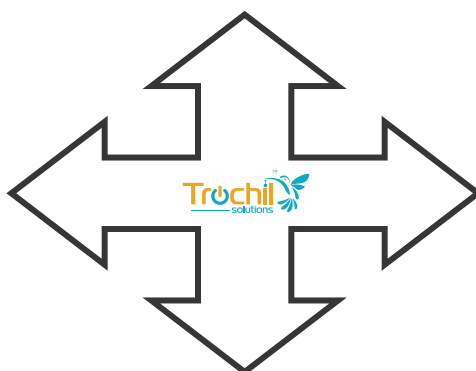

At Trochil Solutions, we offer a wide range of finely processed and beautifully packaged Himalayan Pink Salt products designed to meet the diverse needs of our customers. Our carefully crafted packaging helps maintain freshness, quality, and visual appeal, making our products suitable for households, restaurants, wellness industries, and international markets.

In addition to culinary salt, we proudly present an exclusive collection of Himalayan Salt décor products, including elegant candle holders, natural salt lamps, decorative plates, and other unique creations. These products bring warmth, beauty, and a natural touch to your living spaces while reflecting the timeless charm of the Himalayan region.

TROCHIL'S OPERATION

Trochil Solutions proudly operates worldwide, delivering our exceptional products globally. Whether you're in the UK, US, Australia, or Pakistan, experience our quality offerings and enjoy international shipping convenience

Our Products

INTRODUCING OUR RANGE OF EXCEPTIONAL PRODUCTS AT TROCHIL SOLUTIONS, CENTERED AROUND THE CAPTIVATING HIMALAYAN PINK SALT

Pink Salt Edible

Our Pink Salt Edible is a culinary gem, renowned for its distinct flavor and rich mineral content. It enhances the taste of your favorite dishes, adding a unique and delightful twist to your culinary creations. Not only does it elevate the flavor profile, but it also offers health benefits due to its natural mineral composition.

Black Salt Edible

For a savory touch, our Black Salt Edible is a perfect choice. It imparts a distinct aroma and flavor, enhancing the authenticity of various cuisines. Experience the bold and unique taste it brings to your favorite recipes.

Pink Salt Lamps

Immerse yourself in the soothing ambiance and wellness benefits of our Pink Salt Lamps. These beautiful lamps emit a soft, warm glow that creates a serene atmosphere in your living space. Additionally, they are believed to purify the air by releasing negative ions, promoting a sense of relaxation and well-being.

Salt Candle Holders

Choose the natural rock shape to experience the authentic appearance of unprocessed salt crystals, the sphere shape to represent harmony and balance, or the heart shape to add a touch of warmth, love, and elegance to your surroundings.

Beyond their decorative appeal, our Pink Salt Lamps create a peaceful environment with their soft, soothing glow. They are designed to enhance your living spaces while bringing the natural beauty of Himalayan minerals into your home.

Transform your space with the unique charm and comforting presence of our Pink Salt Lamps, and enjoy a perfect blend of nature, style, and tranquility.

Trochil Solutions — Bringing Himalayan Natural Beauty to Your Space.

SALT CANDLE HOLDERS

Salt Candle Holders

Premium Salt Candle Holders — Elegance Inspired by Nature

Introducing our Premium Salt Candle Holders, a beautiful combination of elegance, natural charm, and timeless design that enhances the beauty of any space. At Trochil Solutions, we offer a unique collection of Himalayan Pink Salt Candle Holders in various shapes and styles, allowing you to choose the perfect piece for your décor.

Select the star-shaped candle holder to bring a graceful celestial touch and a warm, relaxing glow to your surroundings. Experience the natural beauty of the rough rock shape, which highlights the authentic and untouched appearance of Himalayan Pink Salt. Or choose the heart-shaped holder, symbolizing love and affection, to create a cozy and romantic atmosphere.

Our Salt Candle Holders are designed not only to enhance your interior décor but also to create a peaceful and inviting environment with the gentle glow of candlelight. When illuminated, they add warmth, comfort, and a natural aesthetic touch to your home or workspace.

Experience the perfect harmony of beauty, relaxation, and natural elegance with our Salt Candle Holders, and transform your surroundings into a calm and inspiring space.

Trochil Solutions — Bringing Himalayan Elegance Into Your Life.

OUR SUCCESS STORY

Trochil's Expertise in Himalayan Pink Salt Export

Trochil Solutions has been exporting premium-quality Himalayan Pink Salt since 2017, delivering natural and authentic salt products to customers across international markets. From sourcing high-quality raw materials to manufacturing and preparing retail-ready products, our experienced team manages every stage of the process with dedication and attention to detail, ensuring consistent quality and excellent value for our customers.

Along with our manufacturing capabilities, we work closely with trusted logistics partners to provide efficient shipping solutions, competitive rates, and reliable delivery services for our global clients. Our strong supply chain management allows us to successfully deliver products worldwide while maintaining the highest standards of quality and service.

Currently, we supply retail-ready Himalayan Pink Salt products to leading retailers and businesses across the UK, Europe, UAE, India, and the USA. Our products are successfully available in markets including the UK, Germany, Netherlands, Austria, and Poland.

We also supply Himalayan Pink Salt in bulk quantities to food industries and businesses in Lithuania and the UK, supporting their requirements with reliable supply and premium-quality products. With our continued growth and expansion strategy, Trochil Solutions is exploring new opportunities in Australia, America, and other international markets.

Himalayan Pink Salt Bricks

Himalayan Salt Bricks can be used to bake, cure, grill and present a variety of foods, including meats, seafood, fruit, vegetables, and more.

Himalayan Salt Bricks use:

Himalayan salt blocks can be used a number of different ways in the kitchen - you'll be blown away by their versatility. Cooking - Salt blocks can be used for cooking just about anything: meats, seafood, vegetables, baking, pizzas, eggs. You can use them indoors on your stovetop or oven, or outside on the grill or BBQ.

What is salt brick size?

They are available in multiple sizes ranging from 8x4" up to 8x16" and also come in round or rectangular tiles allowing for the perfect size for all your salt block needs.

Himalayan Pink Salt Tiles

Himalayan salt tile walls also emerge anions, these negatively charged ions positively impact your body by alleviating depression, and anxiety and inducing good effects on your lungs. is also used in spas to make salt rooms.

Himalayan Salt Rooms Benefit:

Rejuvenate your nervous system, contributing to overall wellness.

Promote easier breathing and improve lung conditions including bronchitis, asthma, coughs, and colds. Lower blood pressure and stress levels.

Improve skin health including eczema, acne, rashes, dermatitis, and aging skin.

Where do you put Himalayan salt in your house?

For achieving the best results, one should place the Himalayan Salt Lamp where the family spends most of the time and where there are a number of electronic appliances. The ideal situation is to have more than one Himalayan rock salt lamp, at least one in every room.

Himalayan Pink Stones

Himalayan salt is rock salt (halite) mined from the Punjab region of Pakistan. The salt, which often has a pinkish tint due to trace minerals, is primarily used as a food additive to replace refined table salt but is also used for cooking and food presentation, decorative lamps and spa treatments.

Himalayan Salt Stones Benefit:

Promotes healthy blood sugar. Helps lower blood pressure. Supports a healthy respiratory system and sinuses. Boosts bone health and prevents muscle cramps. Improves circulation. Relieves anxiety and addresses insomnia. Lightly exfoliates the skin and is highly relaxing.

Can we keep Pink Salt Stone in bedroom?

According to Vastu Shastra, salt can prove to be very effective to avoid minor disputes in the house, to remove the rift between husband and wife. Keep a piece of rock salt or standing salt in one corner of the bedroom and keep this piece in that corner for a whole month.

Himalayan Pink Salt Mines

The salt is mostly mined at the Pakistan's northern Punjab region at the famous Salt Mines. which is situated in the foothills of the Salt Range hill system between the Indus River and the Punjab Plain. It is primarily exported in bulk, and processed in other countries for the consumer market.

Himalayan Salt Lamps

Handcrafted 100% natural Himalayan salt lamp is an excellent addition to any home or office. Pink salt is a natural ionizer that's why it has many benefits.

Himalayan Salt Lamp Benefits:

When you light them, they give out a warm, reddish-pink glow. Sellers of these decorative pieces say they do more than light up a room. They claim the lamps can boost mood, improve sleep, ease allergies, help people with asthma breathe better, and clean the air, among other benefits.

Where should you place a Himalayan salt lamp?

The best place to put a Himalayan salt lamp is probably the one you spend more time in. This is usually the sitting room. A good place to position your lamp would be on a coffee table next to where you sit and watch TV or use your phone as it will help to reduce the electromagnetic pollution that your tech generates.

Export of Himalayan Pink Salt

Pakistan exports most of its Himalayan salt to United States, Vietnam and Brazil and is the largest exporter of Himalayan salt in the World.

The global pink Himalayan salt market size was valued at USD 222 million in 2021, and it is estimated to reach USD 300 million by 2031 while registering a CAGR of 3.6% during the forecast period (2022-2031).

Trochil Solutions as Exporter

Trochil Solutions Private Limited Company is a leading salt company that sources, process, packages and exports high quality himalayan pink salt and other minerals from Pakistan. We are a third-generation family-owned company since 2017 in the food and commodities industry.

We provide high quality himalayan salt processing, packaging and delivery services to the clients worldwide. Our team of professional salt experts has the necessary knowledge, experience, expertise and skills to help our clients in fulfilling their himalayan pink salt needs.

Trochil Solutions Private Limited company has been established to provide all types of himalayan pink salt solutions to various industries and sectors globally. We specialize in bulk manufacturing and exporting natural pink salt products. We are committed to providing high quality himalayan salt products that are safe for consumers, the environment, and the mining community.

Our products are certified Kosher, Halal and vegan. Our salts are sourced from the most remote parts of Pakistan, where we have direct links with the villagers and communities that produce them.

We are a small family run business and we are passionate about what we do. In addition to offering salt products, PSPC also provides an assortment of salts including Himalayan Salt, Black Salt and Himalayan Crystal Salt.

We have our own processing plants located in different parts of Pakistan. The company offers top quality Himalayan Pink Salt, and we supply to the industry, local consumers, restaurants, hotels and healthcare sector.

Our company consists of highly qualified and professional personnel in the fields of food processing and salt production. We have been working with the industry in food industry for more than five decades. The company is known for its quality. Our customers appreciate us for the high level of professionalism we bring to the table and the quality of products we deliver to them. Our main goal is to establish strong relations with the customers and partners, develop the business, and grow together.

Himalayan Animal Lick Salt

Trochil Salt Himalayan Animal Lick Salt — Natural Mineral Support for Livestock. Trochil Salt Himalayan Animal Lick Salt is a premium natural mineral-rich salt sourced from the ancient Himalayan mountains. Specially designed for livestock and farm animals, it provides essential minerals that help fulfill nutritional needs and support overall animal well-being.

Our Himalayan Animal Lick Salt contains naturally occurring trace elements, including calcium, magnesium, potassium, and iron, which contribute to improved digestion, stronger immunity, healthy bone development, and better muscle function. It helps animals maintain proper electrolyte balance and supports hydration, making it an excellent addition to their daily routine.

Himalayan Pink Salt Lick For Horses

How We Work

Type of Salt with details:-

PINK SALT PRODUCT DETAILS

Salt Name	Pink Salt	Salt Description	Fine Grain
Ingredients	Salt	Country Of Origin	Pakistan
Color	Orange, Pink, Light Pink, White	Salt Type	Natural Salt
Shelf Life	15 Years Minimum		

Enriched with minerals: Pink salt is enriched with minerals like calcium, magnesium, potassium, etc., which are critical for your body to function properly and for improving your overall well-being.

Himalayan Pink Salt has a beautiful rosy-pink, speckled hue. In addition to its sodium chloride (salt) content, Himalayan Pink Salt is remarkably rich in over 84+ essential and trace minerals including Calcium, Potassium, Magnesium, Iron and Copper.

Himalayan Pink Salt Colours:

Himalayan pink salt can be light pink, medium pink, reddish, or beet-colored and Dark Pink. The shade depends on the ratio of minerals in the salt and the location of the mine.

Explanation:

1. The iron in Himalayan salt gives it its pink color.
2. The salt's color can vary depending on the location of the mine.
3. Himalayan salt contains many trace minerals, including calcium, potassium, magnesium, iron, copper, and more.
4. The minerals in Himalayan salt also affect its taste.
5. Himalayan salt is mined from salt rock crystals in the Himalayan region.
6. Himalayan salt is unrefined and does not undergo chemical processing or bleaching.

Other Specifications:

1. Himalayan salt is similar to common table salt in terms of nutrition.
2. Himalayan salt is mined using a "room and pillar" method.
3. Himalayan salt is free from BSE (Bovine Spongiform Encephalopathy) and TSE (Transmissible Spongiform Encephalopathy).
4. Himalayan salt is suitable for vegetarian and vegan use.

Himalayan Pink Salt Edible:

You Can Eat It or Cook With It. In general, you can cook with pink Himalayan salt just like you would with regular table salt. Put it in sauces and marinades or add it to your food at the dinner table. Some people even use pink Himalayan salt as a cooking surface.

You can take Himalayan pink salt's many touted health benefits with, well, a grain of salt. It contains roughly the same amount of sodium per teaspoon as ordinary table salt and fine sea salt, so don't overuse it. Most Americans include too much salt in their daily diets, mostly by eating prepared and processed foods.

WHITE CRYSTAL SALT

Trochil Salt — Natural Crystal Salt & Rock Salt Overview

Trochil Salt offers high-quality natural salt products sourced from the finest mineral-rich deposits. Salt is a naturally occurring crystalline substance available in different forms and varieties, known for its purity, unique texture, and wide range of applications.

Chemically, salt is primarily composed of sodium and chlorine. Pure salt appears colorless, while natural rock salt may vary in appearance from white to gray or brownish shades depending on its mineral composition. These natural variations reflect the authenticity and origin of the salt.

Rock Salt

Rock salt is a naturally formed salt with larger crystal structures. While it is edible, it is generally used differently from regular table salt due to its coarse texture. It is commonly preferred for applications such as salt crust cooking, decorative purposes, finishing dishes, and specialty uses.

Crystal Salt (Himalayan Pink Salt)

Trochil Salt Himalayan Crystal Salt, commonly known as Himalayan Pink Salt, is valued for its beautiful natural color, unique crystal structure, and mineral-rich composition. It is widely used as a finishing salt to enhance the taste and presentation of different dishes.

It can also be used for various wellness and lifestyle applications, including salt baths, body scrubs, and relaxation practices.

Common Uses of Crystal Salt

Finishing Salt:

Sprinkle crystal salt over grilled meats, roasted vegetables, salads, and desserts to add a distinctive flavor and attractive finishing touch.

Salt Bath

Add crystal salt to warm water for a relaxing bath experience that helps create a soothing and refreshing atmosphere.

Body Scrub

Ground crystal salt can be combined with natural oils to create an exfoliating scrub that helps remove dead skin cells.

Salt Therapy

Salt-based wellness practices use natural salt particles as part of relaxation and respiratory care routines.

Natural Deodorizing

Crystal salt is also used as a natural alternative in personal care applications.

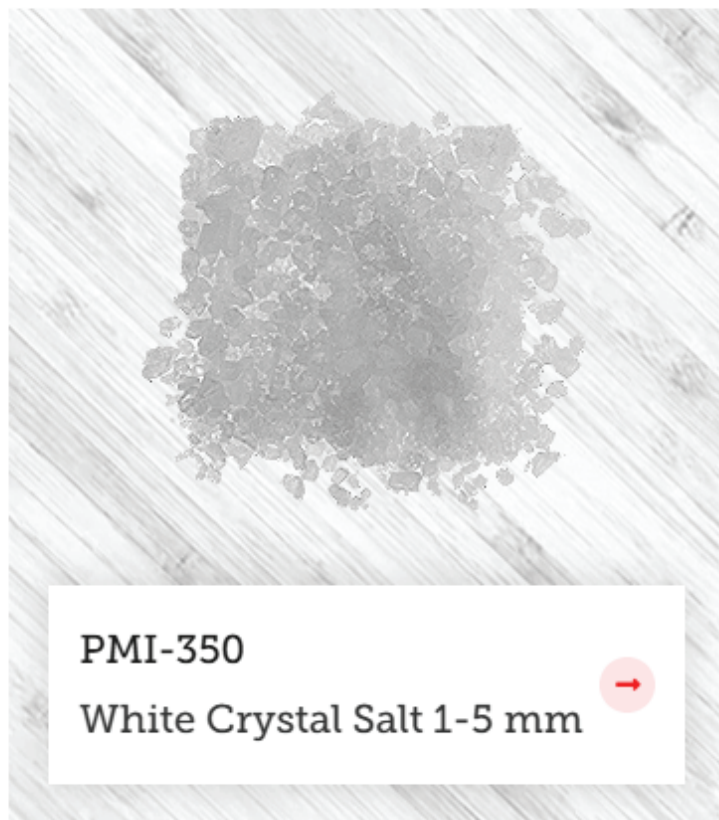

Quality & Usage Considerations

For the best experience, always choose premium-quality crystal salt from a trusted source. While Himalayan Pink Salt is a natural alternative to refined salt, it should still be consumed in moderation due to its sodium content.

With its natural beauty, mineral profile, and versatility, Trochil Salt brings the purity of Himalayan minerals into everyday life.

Trochil Salt — Pure Himalayan Quality, Naturally Delivered.

WHITE CRYSTAL SALT PICTURES & SIZE:

BLACK SALT

Black salt, also known as kala namak or Himalayan black salt, is a rock salt that is mined in the Himalayan region. It is a key ingredient in South Asian cooking and is used in Ayurvedic medicine.

Characteristics :

Color

Dark grey in solid form, and pinkish when pulverized

Smell: Pungent and sulphurous

Taste

Umami flavor and scent of boiled eggs

Composition

Made up of sodium chloride, iron, potassium chloride, and trace amounts of sulfuric compounds

Uses:

1. A popular ingredient in Indian recipes
2. A staple in vegan cooking
3. Used in chaat masala, a South Asian spice blend
4. A finishing salt for meats, sashimi, roast vegetables, and more
5. A seasoning for homemade bread or pretzels
6. A seasoning for caprese salad, frittata, or fresh veggies like tomatoes or cucumber

Health Benefits:

1. Has antioxidant properties
2. Low sodium levels
3. Contains important minerals like iron, calcium, and magnesium
4. Helps control heartburn and bloating
5. Restricts acid levels and reduces reflux
6. Balances pH levels in the body

Physical Data:

ANIMAL NUTRITION

Salt is a vital mineral in animal nutrition that helps maintain the body's electrolyte balance and supports digestion, absorption, and nutrient transportation. Salt is also known as sodium chloride (NaCl).

Animal nutrition salt specifications include sodium chloride content, water insolubility, moisture content, and whiteness.

Sodium Chloride Content:

Feed grade salt should have a minimum sodium chloride (NaCl) content of 95.50%

Feed rock salt has a sodium chloride content of 98%

Feed vacuum salt has a sodium chloride content of 99%

Water insolubility:

Feed grade salt should have a water insolubility of no more than 0.02%

Moisture content :

Feed grade salt should have a moisture content of no more than 3.2%

Whiteness :

Feed grade salt should have a whiteness of at least 45.00%

Other considerations:

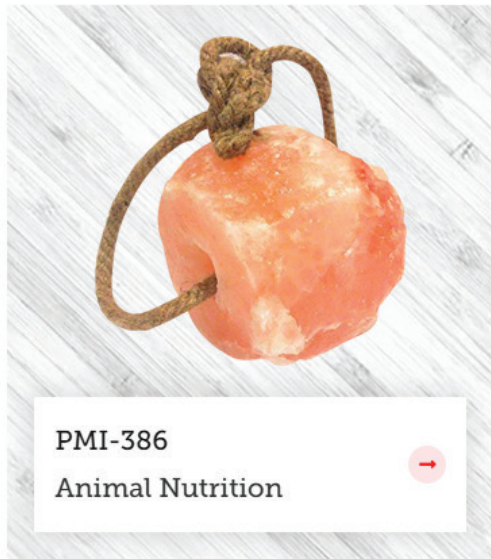

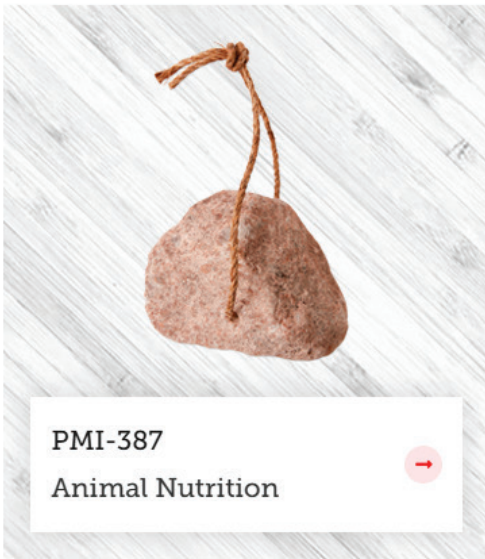

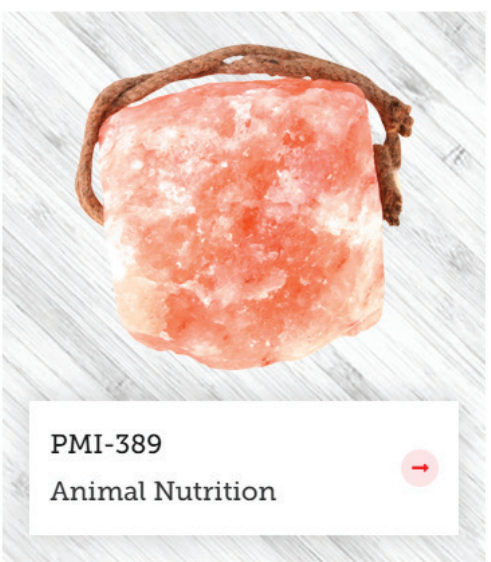

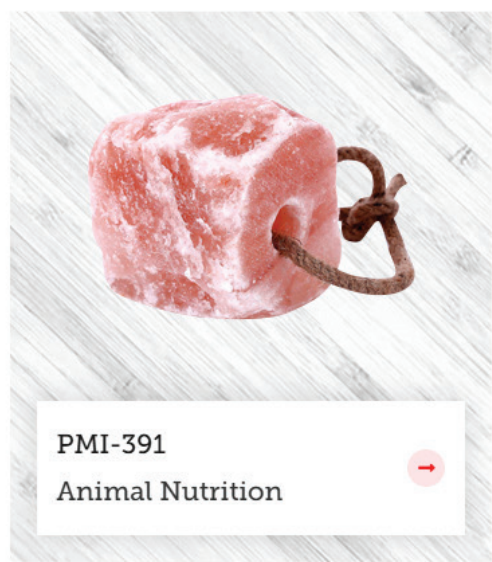

1. The exact mineral requirements of each animal depend on the type of feed, the animal's performance, and its condition
2. Most livestock need between 0.6% and 0.8% salt in their total diet
3. Salt helps livestock maintain a healthy immune system, spread nutrients, and buffer acid during ruminal fermentation
4. Animal feed should contain high-quality nutrients and active ingredients to promote the animals' health, well-being, and productivity.

Salt is viewed as the most imperative mineral required for natural life, pets, and all land creatures, yet its significance is frequently neglected for other essential minerals. Animals have a distinctive hunger for salt, and this guarantees they don't experience the ill effects of unhealthiness and have appropriately working immune and reproductive systems.

Pakmines International brings Himalayan pink salt, which is a fundamental piece of their nutrition and simply like whatever other nourishing lack, when an animal's salt necessity isn't met wellbeing consequences create after some time. That is the reason we offer Himalayan Pink Salt Licks, it is a natural and unadulterated salt required for the best possible improvement and upkeep of bones, muscles, circulatory systems and even the sensory systems of animals.
